All-natural bedding mixture. Scientifically formulated to reduce ammonia odors, to promote digestive health and to create a comfortable, dry and nearly odor-free roosting area.

Made with premium chopped straw, premium chopped alfalfa and Zeolite granules. The mix is composed primarily of chopped straw and enhanced with Zeolite granules. Alfalfa is added to encourage your flock to peck through and continually turn the bedding. This promotes a happy and healthy coop environment. Recommended for chickens, ducks, game birds, pigs and other small animals.

Flock Fresh is also ideal for composting. Get amazing results in your flower beds and gardens without the use of chemicals.
