Yes, those Trampled by Turtles, from Duluth Minnesota. Traveling through to a festival in Canada, they agreed to an afternoon slot. We're very excited to have them. TBT is out promoting their latest release, "Duluth," which debuted at number 8 on the Billboard Bluegrass chart. One reviewer said the album "mirrors the raw intensity of their live performances." This is a don't miss chance to see one of America's most acclaimed and best string bands.
- 6:30 **Handful of Luvin** www.handfulofluvin.com
Here is what the Seattle Weekly had to say: "A potpourri of all great bands we've loved before, each member brings his own unique sound and experience to the stage, formulating an utterly beautiful frenzy. The violinist is mesmerizing as he plays away with all the sound and fury of a regular rock star." They bring an unparalleled musical energy and leave everyone wanting more. Invited back this year after just plain blowing us away last year, they open for Hot Buttered Rum.
- 8:30 **Hot Buttered Rum** www.hotbutteredrum.net
Initially formed as a San Francisco based acoustic string band, seven years of constant touring has transformed this group into a plugged-in percussive powerhouse that wows critics and fans alike. The left-coast rock reveals an access to jazz, country, and world music that few groups can match. While this band's music belies simple categorization, it does delight listeners at every turn. Fun.

- 3:00 Grindhouse

At the Willie Nelson 4th of July Picnic at the Gorge last year a guitar player took the stage unannounced and proceeded to blow the audience away. He turned out to be Willie's son, Lukas. This guy is an incredible talent with a first rate blues tinged rock band. Don't miss this.

These Alt-rock icons are out touring in support of their newest CD, SUNRISE IN THE LAND OF MILK AND HONEY. Brash and irreverent as ever, this new trove of sharp-witted songs follows eight albums before it (one platinum and 3 gold). Best known for their 1990's hits like #1 in Modern Rock "Teen Angst (What The World Needs Now)", and chart toppers "Low," "Get Off This," and "Eurotrash Girl." Cracker mixes influences and sounds from rock, punk, psychedelia, blues and folk. This is a great live band with a loyal following known as Crumbs. Become one.

Their single, "Cool Baby" reached #1 on the Blues Singles chart for 2 consecutive months with Cashbox Magazine and also that song became a top 20 hit on the Beach Music chart. Original, rocking blues, this one is a must for blues fans.
- 8:15 **Alex Duncan and Smooth Groove** alexuncanreggae.com

First known for the song "White Punks on Dope," since covered by Motley Crue. Other well known songs include "Don't Touch Me There," "Prime Time," "Talk To Ya Later," and top 10 hits "She's A Beauty," and "Don't Want to Wait Anymore." - 8:15 **The Iguanas** www.iguanas.com
Hailing from New Orleans and Winner of Offbeat Magazine's "BEST ROOTS ROCK BAND & ALBUM of 2008." Latin shuffles, gritty funk, dark cinematic jazz and Basin Street horns all join hands to create world music in the true sense of the word. The Iguanas are the ambassadors of the singular musical gumbo stew that New Orleans represents to American Music. Also lots of fun!
