To Whom It May Concern:

We recently had our roofing replaced by *Spokane Roofing*. It was a large job, but it went off like clockwork. The old roofing was taken off; the debris was carefully cleaned up daily and hauled off promptly and carefully. The new roofing was installed professionally and in a timely manner. The contractor and his people were courteous, and made sure we could have access to our cars. The finished job was perfect and attractive. Even the County Inspector commented that the work of this company has always been good and even the last details was complete.

We are completely satisfied with the work done for us by *Spokane Roofing* and we strongly recommend them to others who need new roofing.

Regards,

P.A. Killingsworth
