The house at West 627 Carlisle in Spokane, has been in our family since 1951. This invoice was for a reroofing job in 1961 by Spokane Roofing Co., which we were very pleased with then.

In 1977 we needed a new roof, however at that time there were some strapping big fellows in our family and they did the job. But that was long ago and the big ~~fellows~~ Fellows are no longer strapping. So we went back to the firm that had done our roof in 1961 and are happy to report the job was done in the same great way. ~~the~~ The crew is to be commended on their professionalism, Each day when the shift was over everything was picked up and all the trash was hauled away. No one would have been able to guess we were having a roof installed. The lawn, the flowers, etc. were left as they were when they came in the morning.

We are very happy with our experience with Spokane Roofing Co. and so glad they carried on the good name over the many years.

Sincerely,

Ruth A. Menning
